

FIREFIGHTER

DELUXE 3XL TURNOUT GEAR BAG

The original and best! Lightning X Products has been improving the design of this bag for nearly 20 years. Through voice of the customer feedback the LXFB10 has been designed from the inside out by firemen like you. It's large enough to hold all of your turnout gear, helmet, SCBA mask, jumpsuit and other items while being tough enough to withstand the abuse that firemen are known to inflict on their gear. The FB10 has tons of pockets and compartments to keep your gear organized. It's large, it's rugged, it's reflective all-over and it looks great! Everyone else in the firehouse will be asking where you got it.

FEATURES

- Currently the largest fire gear bag on the market
- Made of heavy-duty water resistant nylon
- New triple trim reflective striping
- Now with Vizion zippers for long lasting durability
- Helmet compartment zipper runs full width of bag
- Dimensions: 34(L) x 16(W) x 18(H)

IN RED + BLACK

NEW VIZION ZIPPERS

Lightning X Products took your suggestions and redesigned the value rolling gear bag from the ground up to make it more user-friendly and affordable in this tough economy. A nice compliment to the premium FB60 fire luggage bag, the FB10WV is designed like a traditional turnout gear bag with the addition of wheels, skid pads and a rigid base to prevent "sagging". Includes a main compartment that fits a full set of turnout gear with boots and a separate compartment for your helmet. The main flap opens the full width of the bag for easy loading and unloading of your gear.

FEATURES

- > Structured base w/skid pads to prevent sagging
- > Yellow-Silver triple trim reflective tape w/ leather binding
- > Silver reflective tape & FIREFIGHTER woven into webbing
- > D-rings for attaching shoulder strap (sold separately)
- > Bearing skate wheels & end strap for easy towing
- > Dimensions: 30(L) x 15(W) x 16(H)

HELMET COMPARTMENT

NEW TOP OPENING

VALUE ROLLING TURNOUT BAG

PREMIUM WIDE MOUTH BAG

This is one of our coolest bags yet! We call it a multi-purpose bag because there are just too many uses to narrow it down to just one. This bag features an expanding “wide mouth” opening with double layer nylon construction, cording on all seams and heavy-duty reinforcement on the bottom. In other words: It’s built to withstand whatever abuse you can throw at it! With all kinds of pockets, loops and pouches there’s very little that you can’t do with this versatile bag.

FEATURES

- Ideal for use as a toiletry or personal tool bag
- 18” wide mouth zipper
- Two outside pockets 8” x 2”
- Nylon reinforced ID holder
- Dimensions open: 12” diameter; 34” circumference
- Dimensions: 10(L) x 10(W) x 7(H)

REINFORCED BOTTOM

REMOVABLE SNAP HOOK

We've taken our customer's feedback over the past 20 years and have put it to work by designing a bag with your interests in mind. A truly unique design! The LXFB20 combines the best features of a step-in turnout gear bag and an operations bag. Great for training personnel or relief captains that move from station to station. Big enough to fit all of your bunker gear including boots in the main compartment! Designed by Firefighters for Firefighters.

FEATURES

- > Waterproof reinforcement on the bottom of the bag
- > Added compartments for jumpsuit or change of clothes
- > Front pockets for flashlight, radio, and clip board
- > Reflective striping for added visibility
- > Made of triple layer water resistant nylon
- > Dimensions: 26(L) x 18(W) x 24(H)

TRIPLE LAYER PADDING

PREMIUM PADDED STEP IN BAG

DELUXE SCBA MASK BAG

The FB30 is designed to hold any modern-style SCBA face piece with MMR (mask-mounted regulator), models NFPA 1997 or newer. The bag will hold a face piece with the regulator attached as well as most voice amp and comms devices. The FB30 will also hold an airline face piece or mask with APR (air-purifying respirator) cartridges attached, with the exception of larger CBRN canisters. The L-shaped side opening allows for quick deployment of the mask when needed.

FEATURES

- Protects your SCBA mask from damage
- Dual inner liner protects against scratches
- Hook & loop closure keeps the elements out
- Includes nylon webbing loop and trigger snap hook
- Made of heavy-duty water resistant nylon
- Dimensions: 13(L) x 12(W) x 2(H)

TRIGGER SNAP HOOK

NEW FLEECE LINING

Lightning X Products strives to give you the absolute most amount of product for the least amount of money. The Value Series Gear Bags were designed to give you just that: the best value for your hard-earned dollar, without sacrificing quality. The Value Bags include similar features as our deluxe gear bags but at substantially lower price. There are many color choices and models made for Fire, EMS/Rescue and Law Enforcement.

FEATURES

- > Adjustable/Removable Padded Shoulder Strap
- > Ballistic Grade Nylon Webbing Straps
- > Large Detailed Logos are Embroidered
- > Extra-Large Zippers with Nylon Pull Tabs
- > One Main Compartment and Three Accessory Pockets
- > Dimensions: 30(L) x 14(W) x 16(H)

WEBBING ZIPPER PULLS

VALUE STEP-IN GEAR BAG

QUAD-VENT TURNOUT BAG

Lightning X Products has been making quality public safety bags for nearly 20 years. From time to time we get the urge to improve upon existing bag designs. The LXFB45M uses Quad-Vent Technology that features four uniquely shaped mesh vents located at each corner of the turnout gear compartment to promote cross ventilation. This keeps your gear fresh and helps prevent mildew from forming. Similar bags only have one mesh vent in the rear of the bag.

FEATURES

- Four—PVC reinforced mesh air vents front & back
- Helps prevent growth of mildew from storing damp gear
- Ballistic nylon webbing handles with reflective stitching
- Embroidered Maltese Cross logo, not screen printed
- Dual zippers on all pockets with nylon pull tabs
- Dimensions: 30(L) x 14(W) x (16H)

FOUR MESH AIR VENTS

HELMET COMPARTMENT

Built like no other, a truly unique design! Originally made for the National Guard Firefighters, years of input and development went into this bag and the result is a wheeled fire gear bag that is virtually indestructible. Maybe the luggage companies should take note! The LXFB60 has a rigid back and bottom to prevent “sagging” and has every single stress point reinforced, double stitched and bar tacked. It has large, partially recessed wheels and a luggage-style retractable handle that stows away into a zippered compartment when not in use.

FEATURES

- > Larger bag than ANY of our competitors
- > All corners and high-stress areas are rubber reinforced
- > Cording sewn into all outer seams
- > Fully molded back and bottom
- > Retractable luggage-style handle
- > Dimensions: 32(L) x 18(W) x 18(H)

RIGID ON 3 SIDES

PREMIUM ROLLING GEAR BAG

PINK ROLLING GEAR BAG

The little sister to our LXFB60 premium rolling bags. Designed exactly the same with a slightly smaller footprint. Originally made for the National Guard Firefighters, years of input and development went into this bag and the result is a wheeled fire gear bag that is virtually indestructible. Maybe the luggage companies should take note! The LXFB65 has a rigid back and bottom to prevent "sagging" and has every single stress point reinforced, double stitched and bar tacked. It has large, partially recessed wheels and a luggage-style retractable handle that stows away into a zippered compartment when not in use.

FEATURES

- Reinforced with diamond-embossed waterproof PVC
- Cording sewn into all outer seams
- Retractable luggage-style handle can be "zipped" away
- Large top flap opens the full length of the bag
- Hi-Vis silver reflective trim on front and rear
- Overall Dimensions: 28"(L) x 16"(W) x 16"(H)

EMBROIDERED MALTESE CROSS

PVC REINFORCED BOTTOM

Sometimes simplicity is the best solution. The FB70 is a workhorse turnout bag without all the unnecessary bells and whistles. Simply put – it gets the job done. The FB70 is a center “clam shell” opening step-in style gear bag that stores turnout gear and boots in a ready-to-go state. Just step into your boots, pull up your suspenders, grab your coat and go. Inside the main compartment is a convenient pocket for storing your fire hood, flashlight or personal effects. Other features of the FB70 include:

FEATURES

- > Reflective stitching and “Fire Fighter” woven into straps
- > Lime yellow/silver triple trim reflective w/ leather binding
- > Heavy-duty webbing handles with marrying strap
- > Extra layer of fabric on bottom to protect against abrasion
- > Polyurethane-coated nylon repels water
- > Dimensions: 17”(L) x 18”(W) x 20.5”(H)

LXFGS-P

Lightning X glove holders are made to hold a variety of different sizes and types of gloves. From firefighter and extrication gloves to welding and mechanics styles and more. Each glove holder is made from high quality ballistic nylon webbing that is durable enough to last for years. All of our hooks and hardware now come with black powder coated nickel metal construction. Available in many different configurations and styles made to fit most any budget. You can trust Lightning X to help keep your gloves secure.

FEATURES

- Attaches to belt loop, turnout gear, tool belt and more
- Quick release snap hooks
- Forged eye hooks for easy donning and doffing
- Many styles feature yellow silver triple trim reflective
- High quality springs and machine oiled hooks
- Hook and loop closure now extends all the way down

TRIPLE TRIM REFLECTIVE

HEAVY DUTY WEBBING

The LXRB5 is a personal rope bag designed to hold up to 50ft of NFPA 8mm lifeline or 40ft of 1/2" rescue rope. This is the perfect size for use as a bailout bag, individual RIT line or even a water rescue throw bag. It features 4 webbing loops on the right side for attaching carabiners and other hardware, and a webbing handle on the left. The top and bottom are both reinforced to protect against abrasion. The front of the bag includes an ID window and yellow/silver reflective striping for added visibility.

FEATURES

- > Adjustable drawstring closure for easy access to rope
- > Chrome plated trigger snap hook for attaching to gear
- > Inside features multiple attachment points
- > Including a webbing loop and 1/2" brass grommet
- > Available in Black or Red - empty or stocked
- > Dimensions: 9"(L) x 4.5"(W) x 4.5"(H)
