

MEDICAL

QUICK ACCESS HIP POUCH

The LXMB5-HP Essential EMT Hip/Belt Pouch is made of nylon, leather and neoprene with lime yellow/silver reflective trim. It's made to hold essential items such as trauma sheers, penlight, bandages, flashlight, pocket knife, bandage sheers and a special dispenser compartment for two pair of medical gloves. Includes 3 ballistic nylon webbing loops and a metal spring clip so you can choose how to wear it.

FEATURES

- Lime yellow/silver reflective trim
- Holds essential items
- Special glove dispenser compartment
- Includes 3 ballistic nylon webbing loops
- Metal spring clip and belt loop
- Dimensions: 6.5"(L) x 1.5"(W) x 5.5"(H)

G

SPRING CLIP + BELT LOOP

The LXMB10 is our most compact first responder bag. It holds the same standard fill kit as our LXMB20, but with a more streamlined fit and value minded design. The bag consists of a main hold with customizable dividers, a storage flap with 6 elastic tool loops, and two full length zippered side pockets. Unlike similar bags with buckled flaps, the MB10 has all zippered compartments – so everything stays in place until you need it.

FEATURES

- > Customizable foam dividers
- > Yellow and silver reflective tape
- > Quick access strap grabber
- > Embroidered star of life
- > Reinforced stitching
- > Dimensions: 14"(L) x 9"(W) x 7"(H)

COMPACT TRAUMA BAG

TACTICAL SHOULDER SLING PACK

The MB15 MedSling packs are versatile shoulder bags with a practical design and a tactical feel that can be used in multiple applications. Real world uses include military, law enforcement, EMS, special events first-aid, gun range, hiking, fishing or as a general day bag. The MB15 fits over one shoulder with an adjustable, ergonomic padded shoulder strap, which is also removable with two quick-release buckles. Each side flap, main cover and two side compartments include nylon webbing molle loops which provide multiple options for attaching gear and storing tools.

FEATURES

- Strategically placed ergonomic mesh pads in rear
- Two webbing loops on main flap
- Flaps include quick-access zippered pockets
- Large zippers include nylon webbing
- Two 1/2" drainage grommets
- Dimensions: 14(L) x 6(W) x 9(H)

ERGONOMIC SHOULDER STRAP

The LXMB20 Small First Responder Bag is perfect for volunteer EMTs responding to a medical emergency or even as a basic first aid bag for a school or business. The interior of the bag is filled with loops, pockets, pouches and dividers to hold and organize plenty of BLS medical supplies. Includes a padded adjustable shoulder carry strap for easy mobility.

FEATURES

- > Small enough to keep in your vehicle
- > Padded shoulder strap has reflective stitching
- > Reflective trim sewn into sides of bag
- > All logos are embroidered, not screen printed
- > Foam dividers in main compartment
- > Dimensions: 17(L) x 9(W) x 11(H)

SMALL FIRST RESPONDER BAG

LARGE FIRST RESPONDER BAG

One of our best selling medical bags, the MB30 Large First Responder Bag is designed similarly to the LXMB20 with more space in mind. It meets all of the space requirements for storing BLS supplies with room to spare for more specialized items such as cervical collars, bag-valve masks, etc. Built to hold everything but an oxygen bottle makes it the perfect choice for a rescue squad or EMT.

FEATURES

- Made of heavy-duty water resistant nylon
- Ballistic nylon webbing straps
- Yellow/Silver triple trim reflective striping
- Customizable foam dividers in main compartment
- EMS Star of Life emblem (except purple)
- Dimensions: 19"(L) x 15"(W) x 9"(H)

C

The MB35 is a premium mid-sized ALS trauma bag, meaning it will hold virtually all of the medical supplies needed for a trauma call, less the oxygen bottle. The MB35 is heavily reinforced from top to bottom so it will withstand years of abuse. It also features multiple pockets, pouches, loops and compartments – including four removable color-coded zippered pouches for quick access to high priority items.

FEATURES

- > Raised PVC/Nylon Reinforcement covers bottom
- > Yellow/Silver Triple Trim Reflective Striping surrounds bag
- > Blue & White Embroidered Star of Life Logo
- > Front & Side Pockets stretch full-length of bag
- > Shoulder Strap Is Stitched with Reflective Tape
- > Dimensions: 20”(L) x 16”(W) x 10”(H)

SPECIAL EVENTS EMT BACKPACK

The Special Events Backpack is a lightweight backpack designed to carry basic life support supplies in a mobile situation where medical support or first aid is required, like sporting events, concerts or amusement parks. Perfect for a first responder or volunteer EMT because it's large enough to fit all of your basic supplies, yet small enough to keep in your vehicle floor-board. Includes numerous dividers, loops, pouches and pockets to organize your supplies for quick deployment in the event of an emergency.

FEATURES

- Lightweight design + ergonomic padding
- Padded shoulder straps feature reflective stitching
- Yellow silver reflective tape on both ends of the bag
- Medical Star of Life is embroidered
- Eight removable foam dividers
- Measures 17"(L) x 9"(H) x 11"(D)

B

ERGONOMIC LUMBAR PADDING

The MB50 is a super sized medical bag that is ideal for EMS agencies or rescue squads. The main compartment is designed to hold a "D" sized oxygen cylinder with storage for all necessary oxygen delivery devices. The front, rear and top compartments stretch the full length of the bag and are great for cervical collars, splints or even intubation equipment.

FEATURES

- > Removable padded oxygen cylinder pad
- > 360 degree reflective striping for safety and visibility
- > PVC/nylon reinforced bottom
- > Embroidered Star of Life Logo on main flap
- > Removable padded adjustable shoulder strap
- > Overall dimensions: 28"(L) x 14"(W) x 12"(H)

PREMIUM OXYGEN TRAUMA BAG

MODULAR OXYGEN TRAUMA BAG

The MB65 Modular ALS Bag is an excellent size and layout for EMS agencies. It features a zippered compartment that holds one "D" sized oxygen cylinder that allows easy access to the cylinder without having to remove it from the bag or even open the main compartment. The main hold has removable modular dividers that can be arranged in any order to fit the user's needs. Also included are four color coded quick-grab pouches with a transparent window for organizing supplies.

FEATURES

- Lime yellow/silver triple trim reflective
- Medical Star of Life logo on top flap
- Removable ergonomic shoulder strap
- Hidden cylinder compartment
- Quick grab handle is reinforced with bar tacs
- Dimensions: 20"(L) x 14"(W) x 9"(H)

D

HIDDEN CYLINDER COMPARTMENT

The LXMBP4 consists of four color-coded zipper pouches with clear vinyl window for easing viewing. They can be added to any medical bag, from any brand. Each bag includes an interior pocket and webbing pull loop. The green bag, ideally used for airway items, also features elastic loops for OPA's or nasal airways. Great for mutual aid calls where those assisting may not know the arrangement of your medical bags; just tell them what color bag to give you.

FEATURES

- > Will work with any brand of medical/trauma bag
- > Great for triage or mutual aid purposes
- > Clear window for easy identification of contents
- > Includes 4 colored pouches
- > Red, Blue, Green and Yellow
- > Measures 8.75"(H) x 5"(W) x 3"(D)
