

ECO CAF® 120 Poly Skid

Product Specifications:

- Pressure Vessel Capacity: 120 Gallons
- Discharge Range: 75 Feet
- Solution Capacity: 60-120 Gallons
- Operational Pressure: 175 PSI
- CAF output: 1,200-2,400 Gallons Finished Foam at 20:1 ratio
- Warranty: 1 Year

Dimensions:

- Length: 68"
- Width: 30.5"
- Height: 36"
- Weight empty: 635 lbs
- Weight Full: 1,135 lbs

General Specifications - Standard:

Solution Tank: Steel Construction to ASME standards.

DOT approved, epoxy powder coated inner lining

Fill Port: Female Garden Hose Fitting (Foam Funnel included)

Plumbing Material: Brass and Stainless Steel Fittings

Expellant Type: Compressed Air

1" Pistol Grip Nozzle

Foam Compatibility: Class A, B and AR Foam

Concentrate

Frame Construction: Powder coated steel construction

Pressure Gauges: Span 3" liquid filled (1) Low Pressure 0-300 PSI

Expansion Manifold: Stainless Steel

Discharge Hose - Hand Line: 1" Flat lay hose (1) 50' Length

Pressure Relief Valve: 1/4" 200 PSI
